

AAMC Financial Literacy 101 – Budgeting

One of the first components to the HMS Financial Literacy Program is developing a budget for medical school. All first year students borrowing loans at HMS must complete this process prior to the Individual Entrance Interview Loan Counseling Session with your Financial Aid Officer.

Access the Financial Literacy 101 program via the AAMC FIRST page: www.aamc.org/first. Click on the Financial Literacy 101 section on the far right of the web page.

Log-in or Create an Account – Under the “Obtain Your Certificate of Completion”

Note: there is no charge for this service as a medical student. However, you will need to create an AAMC Username and Password to access this site)

Once logged-in, click on “Budgeting for Medical Students” topic under The Basics. Listen to the 3:31 podcast. At the end of the podcast, complete the online budget worksheet. This information will be stored for future reference.
