**Conflicts of Interest**

**What is a conflict of interest? (ACCME Standard for Commercial Support - Standard 2.1 [SCS 2.1])**
The ACCME considers financial relationships to create actual conflicts of interest in CME when individuals have both a financial relationship with a commercial interest and the opportunity to affect the content of CME about the products or services of that commercial interest.

**Where is the conflict? (SCS 2.1)**
When the provider’s interests are aligned with those of a commercial interest the interests of the provider are in “conflict” with the interests of the public. The interests of the people controlling CME must always be aligned with what is in the best interests of the public.

**How do these circumstances create a conflict of interest? (SCS 2.1)**
The potential for increasing the value of the financial relationship with the commercial interest creates an incentive to influence the content of the CME – an incentive to insert commercial bias. Commercial bias is prohibited in CME.
