Gowning Procedures

1. Put on *bouffant cap* and *face cover*

2. Jump in the *coverall suit*
3. Put on *shoe-covers* (if necessary- most of our new coverall suits come with the boots)

4. For extra protection during microfabrication, *safety goggle, nitrile gloves* and oversleeves are necessary before starting the process.
5. For executing acid or corrosive chemical process, *face shield, apron* and *extra oversleeves* are required.
