Reinventing Drug Discovery

HMS brings broad cross-disciplinary expertise to therapeutics development.

Balancing Act
Mitochondrial protein coordinates how fat is stored or burned.

From Deep Dives to Deep Space
NASA picks HMS biologist who studied animals in harsh environments to become astronaut.

Featured Events

06.27.13 Talk@12: How vital is vitamin D? 200 Longwood, Armenise Amph., noon.

06.27.13 Bridge Project Technology Workshop. DFCI, 450 Brookline Ave., 5-7:30 p.m.

Balancing Act
